WHAT ARE SEIS & EIS?

SEIS (Seed Enterprise Investment Scheme):

- Designed for seed-stage UK companies trading < 3 years, with < 25 employees and assets ≤ £350k
- Investors earn 50% income-tax relief on up to £200k per tax year + Capital Gains Tax (CGT) exemption after 3 years

EIS (Enterprise Investment Scheme):

- Aimed at larger startups (< 7 years trading, ≤ 250 employees, assets ≤ £15 million)
- Investors qualify for 30% income-tax relief on up to £1 million per year + CGT exemption after 3 years

Why it matters

Half of UK angels only invest in SEIS/EIS businesses — essential for:

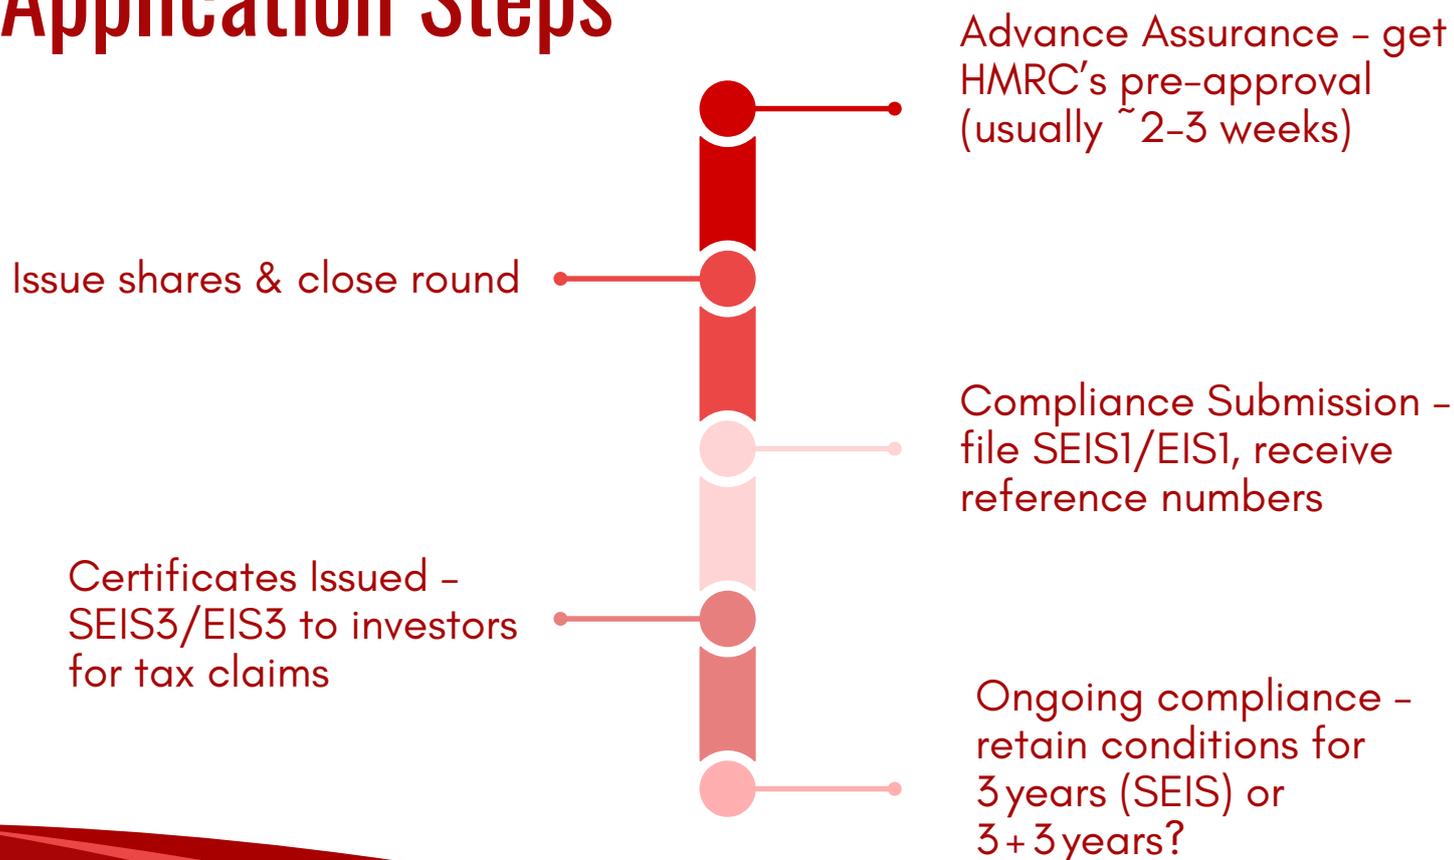

- Making your tech/product stand out
- Offering serious tax advantages to investors
- Fueling rapid growth via aligned capital

ELIGIBILITY & RELEASE STRATEGY

Scheme	Trading Age	Employees	Assets	Other Criteria
SEIS	< 3 years	< 25	≤ £350k	UK-established, qualifying trade, no prior EIS funding
EIS	< 7 years	≤ 250	≤ £15 m	Qualifying trade, non-public company

- Investor limits: SEIS - £200k/year; EIS - £1m/year
- Company raise caps: SEIS - £250k; EIS - £12 m
- Use both schemes sequentially: issue SEIS-shares first, wait one day, then issue EIS-shares

Application Steps

WHY CHOOSE MATPLUS & OUR FEES

**Matplus Chartered
Accountants**

Why Matplus?

- Chartered Accountants specialising in startup tax reliefs
- We handle: eligibility reviews, Advance Assurance, filings, HMRC liaison, and certificate issuance
- We make your application robust, clear, and investor-ready
